7/8/71

Dear Mr. McC.,

FRAME-Up does exist. I enclose an order form.

Please note they have renumbered the rural routes. The number of ours is 8.

I've not read Nebel's book and do not believe LHO phoned him. A similar things was also reported by other stations, I think in no case accurately.

The mysterious book to which you refers is a canard, a puton. It was called "Farewell America", but was not for real. Not available, thank God.

There is every reason to believe that the government is not happy about FRAME-UP.

Hurried thanks,

Harold Weisberg
